

Curious George

1234 Shoreline Avenue
San Francisco, CA 94114

(123) 456-7890
c.george@ucsf.sample.edu

QUALIFICATIONS SUMMARY

- Highly qualified medical writer with expertise in writing and editing a variety of scientific documents for healthcare professionals
- Extensive academic and professional research experience in the biomedical sciences, with an emphasis on scavenging disorders
- Excellent oral and written communication skills, with proven ability to manage multiple projects and work well in a team environment

EDUCATION

- **University of California, San Francisco**, Ph.D. in Biomedical Sciences (*Fellow*) 08/2018-09/2024
- **University of Washington**, B.A. in Molecular and Cell Biology (*Distinction Scholarship*) 08/2014-05/2018

MEDICAL WRITING AND RELATED EXPERIENCE

- **Associate Medical Writer, Bio Medical Inc.** 2024-Present
 - Provide scientific writing, editing, and consulting services to pharmaceutical and biotechnology companies
- **Medical Writer Intern, Bio Medical Inc.** 2023-2024
 - Assisted with writing and editing manuscripts, abstracts, and slide decks for clients
- **Freelance Medical Writer, Healthy Medical Writing, LLC** 2020-2023
 - Wrote and edited CME documents, needs assessments, and executive summaries for clients
- **Copyeditor, PodcastToday** 2019-2020
 - Provided quality assessment for weekly *Science* podcasts
- **Staff Writer, Health and Science Section, Newspaper (UCSF student newspaper)** 2019-2020
 - Wrote articles about science and health-related lectures at UCSF; interviewed healthcare professionals
- **Contributing Writer, Science and Technology Section, Daily Newspaper (University of Washington student newspaper)** 2019-2020
 - Interviewed principal investigators at University of Washington and wrote articles about their research

RESEARCH EXPERIENCE

Biomedical Sciences Graduate Program, University of California, San Francisco Ph.D. Thesis
Principal Investigator: Sally Sample, M.D., Ph.D. 2019-2024

- Discovered therapeutic applications of the small protein in Monkey's disease neurobiology (Results published in Sample et al., The Journal of Neuroscience, 2024)

Biomedical Sciences Graduate Program, University of California, San Francisco Ph.D. Rotation
Principal Investigator: Erik Example, M.D. 01/2019-04/2019

- Demonstrated that gain of the protein contributes to the pathogenic effect of acute scavenging disorder (Results published in Example et al., Nature Neuroscience, 2019)

University of Washington Undergraduate Research
Principal Investigator: Roberta Reference, Ph.D. 2016-2018

- Discovered a novel role of a hormone in neuroendocrine biology (Results published in Reference et al., Frontiers in Neuroendocrinology, 2018)

OTHER RELEVANT EXPERIENCE

- **Co-organizer for Neurobiology Club at UCSF** 2019-2020
 - Organized and conducted monthly speaker events related to neurobiology

- **Idea to IPO...and Beyond: A Course in the Business of Biotech, UCSF** 2019
 - Wrote and presented a business plan about the development of an orthopedic device company with team members

TEACHING AND MENTORING EXPERIENCE

- Mentor for University of Washington summer undergraduate intern, Bill's Biology Institute 06/2024-08/2024
- Science and Health Education Partnership (SEP) Volunteer, UCSF 2021-2025
- Graduate Student Instructor, "Climbing 101," UCSF 04/2024-06/2024
- Teaching Assistant, "Climbing and Playtime for Non-Native Speakers of Gibberish," UCSF 10/2024-12/2024
- Co-Founder and Project Coordinator, University of Washington 2017-2018

COMPUTER SKILLS

- Proficient in Mac and PC platforms
- Experienced in Microsoft Word, Excel, PowerPoint; Adobe Photoshop, Illustrator

HONORS AND AWARDS

- Bill's Biology Institute Scientific Poster Award 2024
- Scavenging Association Award for Excellence in Research on Scavenging Disorder and Other Related Disorders 2024
- International Conference on Scavenging Disorder Travel Fellowship 2024
- National Science Foundation Graduate Research Fellowship 2022-2024
- National Science Foundation Graduate Research Fellowship Honorable Mention 2021
- UCSF Graduate Dean's Monkey Climbing Fellowship 2020-2021
- Scavenging Fellows Program Undergraduate Research Fellowship (summer) 2017
- Scavenging Fellows Program Undergraduate Research Fellowship (spring) 2018

POSTERS AND PRESENTATIONS

George C., et al. Presented at the Society for Monkey's Conference, San Francisco, CA, 2024 (*Poster*)

George C., et al. Presented at the Scavenger's Association International Conference on Scavenging Disorder, Los Angeles, CA, 2024 (*Poster*)

Sample S., Example E., Reference R., **George C., et al.** Presented at the American Society of Monkeys Annual Meeting, San Francisco, CA, 2024 (*Poster*)

George C., et al. Presented at the Annual Meeting of the Society for Monkeys, San Francisco, CA, 2023 (*Poster*)
